(54) TWO TYPES OF CHEMICALS-MIXING
CONTAINER

COPYRIGHT: (C)1996,JPO

(57) Abstract:

PURPOSE: To provide a container which can separately store two types of chemicals at the same time, and can mix, stir and discharge the two types of chemicals by a simple operation at the time of usage.

CONSTITUTION: A second container body 3 with a breakable bottom wall 12 which can be broken by a pressing is screwed on the top of a first container body 2, and a lid member 4 of a special constitution is fitted on the upper end of the second container body 3. In addition, a cap 5 is descendably screwed on an upper part of the circumference of the second container body 3 to constitute a two types of chemicals-mixing container. Then, by lowering the cap 5 by screwing, the lid member 4 is pressed down, and the breakable bottom wall 12 is broken by a cutting blade 17 of the lid member 4 so that two agents may be mixed.
